

“ The installation of Steel Above Ground plants have created an EPIDEMIC of aging, failing Wastewater Treatment Plants across Louisiana. The future of our infrastructure hinges on **Gainey's PRECAST** solution.

Multiple Sizes Available:  
500 GPD to  
250,000 GPD

## ABOVE GROUND PRECAST WASTEWATER TREATMENT PLANTS

## YOU HAVE CHOICES!

**Metal Tanks are no longer your only option for Above Ground Treatment!**

## PICK PRECAST!

### LONGEVITY

- 1 Unlike most other materials, precast concrete increases in strength over time. The service life is over 100 years!

### PROVEN PERFORMANCE

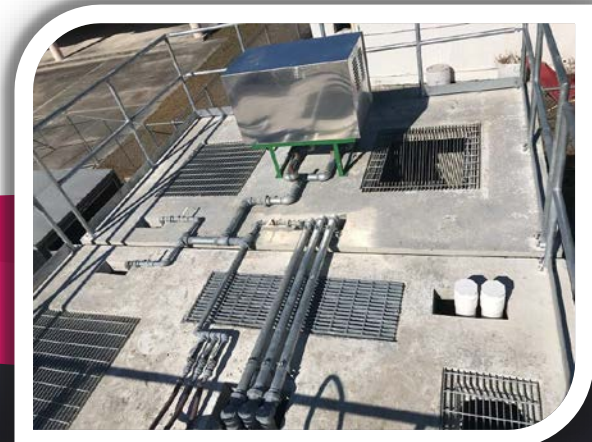

- 2 Meets the strictest discharge limits of 5 mg/L BOD – 5 mg/L TSS – 2 mg/L Ammonia Nitrogen – 5 mg/L Phosphorus

### WATER-TIGHT

- 3 We have perfected the technology to achieve water-tightness with our PRECAST tanks. Every installation comes with rigorous documented water testing!

## WASTEWATER PROFESSIONALS

Our specialty contracting crew is licensed and insured to install our extended aeration treatment plants in Louisiana and Mississippi.

“My goal is to hold your hand through the design and permitting process!” - Cyndi Glascock
